Immediate Request for Applicants

Aircraft Restoration Mechanic

Foundation Background

The Warbird Factory Foundation is a nonprofit aviation organization dedicated to preserving America's aviation heritage and developing the next generation of aircraft technicians. Located at Albany International Airport, we restore and maintain historic warbirds—including the B-25 Old Glory and FG-1D Corsair—while also supporting our on-site aircraft maintenance facility that services both vintage and general aviation aircraft.

Through our Workforce Development Program, we provide hands-on training and paid apprenticeships for aspiring A&P mechanics, offering real experience on both historic and modern aircraft. Our mission is to preserve the past, train the future, and inspire our community through aviation.

Position Overview

We are seeking a skilled and passionate Aircraft Maintenance & Restoration Mechanic to join our team. This is a unique opportunity to work on a variety of vintage and modern aircraft in a dynamic and collaborative environment.

Responsibilities

- Perform efficient troubleshooting, aircraft maintenance, and repair in accordance with applicable aviation regulations, manufacturer's instructions, and company policies.
- Ensure consistent, accurate aircraft maintenance records by properly documenting and completing required forms, computer entries, and logbook entries.
- Follow all policies and procedures.
- Keep a clean and orderly work environment.
- Perform daily maintenance activities in our restoration facility. Including the current restoration projects of our B-25 and FG-1D Corsair.
- Perform other duties as assigned.

Required Qualifications

- 2-3 years' experience with vintage piston aircraft maintenance and repair.
- Strong understanding of FAA regulations and standards.
- Must be able to lift and carry up to 50 lbs and work in a physically demanding environment.
- Ability to work both independently and as part of a team.

Preferred Qualifications (one or multiple)

- Experience with vintage/warbird maintenance and/or restoration.
- Experience with radial piston engines.
- Knowledge of B-25 Mitchell and/or FG-1D/F4U Corsair aircraft.
- FAA Airframe & Powerplant (A&P) Certification.

Benefits

- Starting pay commensurate with experience.
- Employer paid health care plan.
- 11 Paid holidays.
- 10 Paid Time Off Days per year (PTO is earned on an accrual-basis).

How to Apply

If you're passionate about aviation and meet the qualifications listed above, we'd love to hear from you! Please send your resume and a cover letter detailing your experience and interest in this position to resume@prescott Holdings.com.
